

The Waverley Way

Waverley Forklifts is Australia's leading privately owned forklift company with over fifty years of experience within the material handling and transport industries.

Owned by Charlie Schwerkolt, who upholds a fifth generational family legacy in business, Waverley Forklifts has grown to become an industry leader in the areas of forklift rental, hire, service and transport.

We have worked hard over a number of years to refine our standards of operation and we pride ourselves on our continual commitment to improvement.

Traditional values, combined with modern thinking, allow us to provide our valued customers with exceptional service in the provision of forklift solutions, rather than just being a forklift company.

Our drive for customer satisfaction ensures the ease of doing business with Waverley Forklifts is second to none.

Waverley Forklifts has achieved success by never forgetting the most important parts of our business – our customers, along with the people who deliver our service.

We are proud to be an employer of choice, with impressive employee tenure and a reputation for stability. All of our employees, from the long-term staff to the most recent recruits, are members of the extended Waverley family. This family environment underpins the culture at Waverley and is reflected in how we interact with our customers.

We will do **whatever it takes** to go the extra mile to ensure the products and service we deliver meets and exceeds our customer's expectations.

Whatever the request, we will **make it happen**.

Welcome to the Waverley Way.
